

HITACHI
Inspire the Next

Career at Hitachi Astemo Aftermarket Germany

We have been successfully developing and distributing products for the international spare parts market for over 40 years. With over 100 employees at our Espelkamp site, we stand for customer orientation, the highest quality standards and product competence. Rigid corporate structures? Not in Espelkamp. Despite belonging to a group, we have retained our medium-sized character and the flat hierarchies at our site.

We at Hitachi Astemo Aftermarket Germany are a committed team that works together with mutual re-spect and at eye level. We think not only about the mobility of tomorrow, but also about the employees of tomorrow.

Our benefits

- Flexible working hours
- Flat hierarchies
- Good cooperation among our trainees
